

## Eyelash Extensions!

EXCITING NEWS FLASH! At last, there is a salon in your area that offers the cutting-edge service of extensions! Now you can have absolutely stunning eyelashes that look and feel natural. They are far superior to the false eyelashes you once tried!

Eyelash extensions are individually glued on to your own lashes with a medical grade adhesive. They are waterproof and can be worn with or without mascara. Imagine waking up to long, luscious lashes every morning!

There is no daily maintenance but as the natural eyelashes mature and shed, so will the extensions. We recommend coming in every three weeks to replenish the lashes that have been lost.
